Dear Mr. Rhoades:

Pursuant to our telephone conversation today I have enclosed the blue line copy of the 1963 Lees Lane Landfill photograph and a xerox copy of the 1981 photograph. The approximate boundary of the site is marked in black ink on the 1981 copy. The area marked in red ink is requested to be enlarged to an approximate scale of 1"=50'. If the requested area will require too much work, please enlarge at least one photograph frame outside the site boundary. This off-site area is requested to establish a base map for plotting resistivity data points (leachate plumes) off site.

Shane Hitchcock, EPA Region IV, will formally request the above work in his letter to you.

Sincerely,

H. Dan Harman, Jr.
